"MENTAL HEALTH" MOVEMENT MENACE TO CHRISTIANITY

AIM OF PSYCHIATRY TO ERADICATE CONCEPT OF RIGHT AND WRONG
HUMANISM AND MATERIALISM TO BE SUBSTITUTED FOR DOGMA OF CHRISTIANITY

By REV. G. R. BEIRNES

(Excerpts from an Address)

"In the good name of peace, security and opportunity the Christian religion is being undermined for eventual destruction by the World Health Organization," thus states Dr. James DeForest Murch, in an editorial written for United Evangelical Action 6-1-58.

"The World Health Organization and the World Federation for Mental Health," he continues, "are working closely together in a program involving legislation and propaganda at the national and world levels. If their plans are successful, they will soon have a network of governmental agencies, university chairs, mental institutions, training centers, clinics, professional psychiatrists, psychologists and social workers which can control the thinking of humanity."

That the "Mental Health" program is primarily directed against Bible Christianity and its moral teachings was disclosed in a statement by Dr. G. B. Chisholm, president of the World Federation of Mental Health and former director general of the World Health Organization. Dr. Murch quoted Dr. Chisholm as saying that peace, security and opportunity cannot come to the world as long as "morality—the concept of right and wrong" continues to exist. In the William Alanson White Memorial Lectures in Washington (spring of 1958), Dr. Chisholm said:

"For many generations we have bowed our necks to the yoke of the conviction of sin. We have swallowed all manner of poisonous certainties fed us by our parents, our Sunday and day school teachers, our priests and others with a vested interest in controlling us . . . The reinterpretation and eventual eradication of the concept of right and wrong which has been the basis of child training, the substitution of intelligent and rational thinking for faith in the certainties of old people, these are the belated objectives of practically all effective psychotherapy. Would they not be legitimate objectives of original education? . . . With the other human sciences, psychiatry must now decide what is to be the immediate future of the human race. No one else can."

The World Health Organization of the United Nations provided legislation for the authorization and execution of this anti-Christian program in Article 19 of its Constitution. It states: "The Health Assembly (of the WHO) shall have authority to adopt conventions or agreements with respect to any matter within the competence of the organization."

Quoting from one news source, the World Health Organization, when it was founded in 1948, openly asked for legislation, affecting psychiatric treatment. "They asked for power to incarcerate people who are 'aware or unaware of their state, willing or unwilling to accept treatment.' They are to be full guardians over the property of patients, and everything must be on a 'compulsory' basis.

U. S. Keeps Detention Camps Ready

Six Units Maintained
for Emergency Could
House Thousands

BY LUTHER A. HUSTON

Special to The New York Times
WASHINGTON, Dec. 26.—The United States could intern 5,000 spies and saboteurs almost immediately in the event of war, an invasion or an insurrection. Thousands more could be put in detention camps as fast as they were rounded up.

Another Pearl Harbor would not catch the Government napping in matters of internal security to the extent that it was in 1941.

No one knows who would be detained, or how many. If there is a "pick-up list" it is super-secret. The Federal

Six camps (underlined) could be made ready almost immediately to hold 5,000 spies, saboteurs or other persons considered dangerous in case of a national emergency.

in other Federal penal institutions. present camp are stored and in which food and equipment for a In the event of evidence to full complement of occupants

The above is from the New York Times, Dec. 27, 1955.

JUST FOR WHOM ARE "THEY" RESERVING THESE DETENTION (CONCENTRATION) CAMPS?—Also the million acres set aside in Alaska "for the construction of a mental hospital and other facilities . . . to provide an integrated health program." Is perhaps the real purpose to establish concentration camps for POLITICAL OPPONENTS, under the guise of care and treatment of mental cases?

They are to be the adviser to 'all branches of government,' also 'labor, justice and education.' Only they can license hospitals and only the ones they approve will be allowed to operate."

In 1950, the Federal Security Agency (now the Department of Health, Education and Welfare) introduced in the United States general legislative principles for the execution of the WHO master plan through the "Draft Act Governing the Commitment and Hospitalization of the Mentally Ill." Since then, "over thirty state legislatures have adopted portions of this Draft Act, and all the States have legislation on their agendas which will implement the program."

An American organization called "The Council of State Governments" is now seeking to change all State Constitutions in order to make it legal to seize people wherever found and place them in insane asylums. The organization's "Compact on Mental Health," the basis for various Governor's Conferences, has already been ratified in ten or more States.

Dr. Murch in his editorial pointed out the fact that our tax dollars are being appropriated by the millions to accomplish the destruction of Christian moral and religious tradition, and he warned that if people value their Christian heritage, "now is the time to protest this insidious 'mental health' movement at local, state and national levels before it is everlastingly too late."

Outline of Plan for "Mental Health"

Sometime prior to 1936, the late Lavrenty P. Beria, former head of Russia's dreaded secret police, addressed classes on "Psychopolitics," attended by American students at Lenin University.

Psychopolitics, as defined in their Russian Textbook, is "The art and science of asserting and maintaining dominion over the thoughts and loyalties of individuals, officers, bureaus, and masses and the effecting of the conquest of enemy nations through 'Mental healing.'

This Textbook, the source of much of our information, was condensed and published by Kenneth Goff, a former member of the Communist Party, under the title, "Brainwashing—A Synthesis of the Russian Textbook on Psychopolitics." The booklet has been read into the U.S. Congressional Record.

Briefly, the main points in Beria's address were as follows:

1.—The psychopolitician must crush every "homegrown" variety of mental healing, including that of Bible Faith Healers. The latter must be "discredited, defamed, arrested, stamped upon even by their own government until there is no credit in them and only Communist-oriented "healing remains."

2.—As future psychopoliticians, they must "labor until every doctor and psychiatrist is either a psychopolitician or an unwitting assistant to our aims." As "respected" men in
